(7) The expenditure incurred on the establishments - permanent & temporary - should have some refce to the receipts from the farm what is the increase in the farm for the last 5 years & whether this expenditure on establishment is justified during the above period? Is no other establishment required if this establishment is sanctioned, in case the dairy farm is started? Unless there is a detailed proposal of the financial implications of the proposal, it will not be easy to sanction it. The establishments - permanent & temporary - will have to be treated as one unit so far as the Sewage farm is concerned. A draft calling for the above information may be put up

2y) The Comptroller has intimated that the net extra recurring cost on account of the Reorganisation Scheme would be Rs 16,594- per annum

3) The reasons urged in support of the Scheme are
1) That the scale of pay now in force for the Farm Establishment is very poor and not attractive to respect hard and honest work from the staff
2) That the present establishment is found inadequate to cope up with the increased activities of the Farm, Supplies

Sir,

Subject Reorganization of the Sewage Farm

Adverting to Government Order No L 450-3/Ml 11-43-122 dated 15th July 1944 according approval for the appointment of Mr G P Channabasavanna, as Assistant Manager of the Municipal Farm on probation for one year and the continuance of Mr Raghunatha Rao as Manager of the farm during this period, I have the honour to state that Mr Channabasavanna did not join the appointment, and the Deputy Commissioner, Mandya District, has intimated that this official is no longer in the Revenue Department

The Managing Committee in their resolution No 152 dated 21st June 1944 prpposed the revision of the grades of the Manager, and Assistant Manager and certain arrangements for filling up these posts in view of the increase of work in the Municipal Farm, in several respects As the question of starting a dairy farm as an adjunct to the Sewage Farm was engaging the attention of the Municipal Council, they referred it back to the Managing Committee in their resolution No 912 dated 29th July 1944 for sending consolidated proposals, with a note from the President

In pursuance of the above, a note (vide copy enclosed) was place before the Council at their meeting held on 26th August 1944 after approval by the Managing Committee The Council sanctioned the proposals in their resolution No 141 dated 26th August 1944, which as follows

1 Superintendent with the qualification of B Sc ,(Agri) Pay Rs 100-5-120+ Duty allowance of Rs 20/+ F T A Rs 25/-

2 Horticultural Assistant in grade 50-5/2-75 Plus C A Ps

3 A veterinary assistant in grade Rs 50-5/2-90
Plus C A Rs 10/-

4 One Fieldman on Rs 20-1-30

5 One Salustry on Rs 20-1-30,

The extra cost in this behalf being met by reappropriation of the sanctioned allotment The starting of a Dairy farm and the improvements to be effected to the Sewage Farm were also approved A proposition statement showing the existing and proposed establishments and a copy of the Council Resolution are also enclosed

In view of the development of the Sewage Farm and consequent increase in income and growing responsibilities and the proposal to start a dairy farm, as an adjunct to it, the above proposals which represent the minimum requirements may kindly be sanctioned

The Milk Supply Sub Committee visited the Sewage Farm on the 3rd instant with the Director of Agriculture, and it is proposed to start the dairy farm in the very near future A separate reference in this connection will follow shortly

Office of the President,
City Municipal Council, Mysore
Dated 9th August 1944

OFFICE NOTE

Subject Reorganization of the Sewage Farm Establishment

The Managing Committee in their resolution No 152 dated 21-6-1944 (put up herewith) proposed certain arrangements for the appointment of a Manager and an Assistant Manager for the Sewage Farm on the revised higher grade of pay as detailed therein The Municipal Council took up for discussion another proposal for the opening of a dairy farm for supplying pure milk to the city for which a separate committee was appointed to consider and furnish proposals in that behalf The Milk Supply Sub Committee had requested the Director of Agriculture to furnish a scheme for opening a Municipal Dairy Farm close to the Municipal Sewage Farm The Dairy Officer and the Veterinary Research Officer attached to the Agricultural Department furnished a scheme for opening a dairy farm as attached to the Municipal Sewage Farm which was considered by the Milk Supply Sub Committee in their meeting held on 26th July 1944 On the several proposals that were discussed at that meeting the Committee came to a conclusion that the Establishment of the Sewage Farm and of the Dairy Farm should be in a manner so as to work conjointly so that there should be an effective co-ordination between these two Departments and therefore a consolidated revised proposal may be put up before the Municipal Council by referring the entire proposals once again to the Managing Committee The proposals they made are as follows

1 There should be a Manager or a Superintendent for the entire Municipal and Dairy Farm

2 An Agricultural Inspector should assist the Manager for looking after the Sewage Farm and a Veterinary or a Dairy Assistant should assist the Manager in the work of the Dairy Farm

3 One Fieldman to look after the grass and vege - tables section should be appointed

4 There should be a Veterinary Salustry for assisting the Veterinary Officer who will also be in charge of the Municipal Cattle Shed

In this connection the case of L Kempiah, the present Avenue Inspector came up for consideration of the Committee and they opined that he may be appointed as an Agricultural Assistant to the Sewage Farm Manager on a graded pay of Rs 40-3-70 and in consideration of his good and remaining servide he may be started on Rs 52/-

The resolution of the Managing Committee already passed at their meeting held on 14th July 1944 having been placed before the Municipal Council in the month of July 1944, the Municipal Council resolved on the Committee's recommendations as follows -

"May be referred back to the Managing Committee for further consideration and placing this before the Council with a note from the President"

In view of this resolution, the following recommendations are placed before the Managing Committee The graded pay suggested below are with reference to the prevailing grades in the Agricultural Department according to the sanctioned scale in the State Budget

1 The Manager's post of the Farm will carry a graded pay of Rs 100-5-120 per mensem with a consolidated allowance of Rs 20/-

2 The pay of the Agricultural Assistant is proposed to be in grade Rs 40-3-70+ C A Rs 5/-

3 The pay of the Veterinary Inspector may be Rs 50-5/2-90 and a consolidated allowance of Rs 15/-

4 One fieldman will be appointed on Rs 25+5 C A

5 The pay of the Veterinary Salustry will be Rs 20-1-25

In this connection, it is to be stated that on a further consideration of the representation submitted by L Kempiah, the present Avenue Inspector whose case has

recommended to be considered while making appointment to the post of the Agricultural Assistant proposed to be appointed in grade Rs 40-3-70, a separate note is ~~being~~ put up L Kempaih is now the Avenue Inspector on a pay of Rs 40+15/- The representation of L Kempaih together with the recommendations of the Municipal Engineer thereon are herewith put up Mr C Ranganathulu who was the former Avenue Inspector was posted to the Sewage Farm as Assistant Farm Manager on Rs 35/- against the grade Rs 40-2-50 in whose place L Kempaih was appointed as Avenue Inspector (in 1942)

In view of the representation given by L Kempaih and the proposal made by the Municipal Engineer for the revision of Avenue Establishment a separate note is also put up regarding the Reorganisation of the Avenue Establishment

In the circumstances explained therein, the case of L Kempiah is not taken into consideration either in appointing him or in fixing him up in a definite graded pay proposed to the Agricultural Assistant for the Sewage Farm

As regards the opening of the Dairy Farm, the Director of Agriculture has been requested to attend the meeting of the Committee and to give his kind suggestions on the several proposals to be made for starting a Dairy Farm and the proposals of that Committee in that behalf will also be placed before the Municipal Council In view of the development of the Sewage Farm and consequent increase in income and growing responsibilities and the proposal to start a dairy farm as an adjunct to it, the proposals indicate the minimum requirements and as already considered by the Managing Committee and the Milk Supply sub Committee, these proposals may be approved

Sir, With reference to your letter No M65-48 205/44 dt 7-10 44 re the reorganization of the Sewage Farm Mysore, I am directed to request you to forward a statement showing the several temporary establishments attached to the Farm noting thereon the date of sanction, the period for which they have been sanctioned, the date of expiry of their period & the cost incurred on them every year In view of the present proposal for a general reorganization of the estt, it is desirable to examine the need for the continuance of the several temporary estts & obtain sanction either for making such pos.

permanent or to disband them

The question may therefore be examined afresh in the light of the above observations and considered proposals submitted for the orders of Court, instead of sending up piecemeal proposals in respect of each of the sections of the Ord Sewage Farm

PROPOSITION STATEMENT FOR THE REORGANISATION OF THE MUNICIPAL SERVICE.

Sl No	Designation	EXISTING SCALE: No of hands	Scale of pay	Total cost per month	PROPOSED SCALE: Designation	No of hands	Scale of pay	Total cost p m	Reasons for the Reorganisation
		Permanent Establishment							The scale of pay now in force to the farm establishment is very poor and not attractive to expect hard and honest work from the staff. Further, the present strength of the Farm establishment is found inadequate to cope up with the increased activities of the Farms such as extending the grass area by another 10 acres and growing vegetables under pure water commanded by a well near the Compost Yard. The transactions of the Farm including both receipts and expenditure exceed Rs 75,000. Hence the necessity for the additional executive and ministerial staff proposed. A list showing the present area under different crops in the Farm is herein attached. Since the question of starting a Dairy Farm as under correspondence, between Govt and the Municipal Council, the necessary establishment is not included in the present proposal excepting the post of Veterinary Assistant

Sir,

Subject - Re-organisation of the Sewage Farm

With reference to your letter No L 10990 dated 5th May 1945, calling for further particulars on the above, I have the honour to state as follows -

1 A statement showing the income from the Municipal Sewage Farm during the last five years, expenditure on establishment during the same period, and the proportion of income to expenditure is enclosed

2 Regarding the query as to whether no other establishment is required to start the Dairy Farm if the establishment now asked for is sanctioned, I am to invite reference to this office letter of even number dated 12th May 1945 stating that separate proposals would be sent up regarding the establishment required for the working of the Dairy Farm This will be sent to Government, after obtaining a scheme from the Director of Agriculture who has been requested in the matter

3 The proposals contained in this office letter of even number dated 10th October 1944, (under reference) are included in the consolidated proposals forwarded to Government with this office letter of even number dated 12th May 1945 and the latter proposals may therefore be sanctioned

Though the G O No Fl 3471-3531 S&A 13/-44-1 dated 1st February 1945 is applicable to local bodies as well the ~~Provincial~~ present proposals cannot be put off in the interests of efficiency and have therefore been submitted to Government, for favour of early approval thereto

Subj Reorganization of the Municipal Sewage Farm Mysore

Sir,

With reference to the correspondence ending with your letter No MS-46-225/44 dated 26-1-45 on the above subject, I am directed to observe that it is seen from the statement of temporary establishment received with your letter No MS-P1 87-337/44 dated 10-7-45, that the following temporary establishments are also attached to the Sewage Farm —

Cattle Shed — Sanjeevan on Rs 10- p M
Compost yard " 8 on Rs 7-6 p M respectively
Septic tank " 6 on Rs 10- p M

These are not shown in the Proforma statement received with your letter No MS 45 dated 12-5-45 Why this has not been done may be made clear Kindly

Are the Storm water Cookies reserved to Mysore

~~the same as the~~ Public Works Department
~~favour~~ in respect of the permanent charges
are suggested?

The scale of establishment proposed is also very liberal e.g. Rs as against 110 gardeners (both permanent and temporary), 120 gardeners on graded scales of pay are proposed whether in view of the increase of pay and of the fact that these services would be placed on a permanent basis, is it not possible to reduce this number or to retain it at the present level of 110 alone?

The necessity for giving a lump pay of Rs 25 and Rs 20 to the watchmen whose posts are proposed to be created for the first time also requires examination
~~may be explained~~ in terms of the measurements considered necessary.
Should their pay not also be graded one so as to be uniform with that of others?

Similarly would it not be sufficient to have only two clerks on Rs 25-1-40 in place of the present ~~staff~~ one clerk as at present & whether the Head Clerk on Rs 40-2-50. ~~the~~ ~~table~~ may not be ~~desirable~~ employed if and when the daily Jemadar is actually elevated

The present number of gratuitous Cooles is 4 on Rs 8-p m Whether, instead of increasing it to 8 on Rs 12-½-15, it may not be increased to six only (C 50/ over the existing strength) may be made clear

Do the Scales of pay of the Veterinary Assn and the Salutry Inspr proposed correspond with those in force in the Veterinary Dept?

What is the total amount of clearness allowance now paid to the existing establishment every month and what would it amount to if the revised proposals are sanctioned?

When is the dairy farm likely to be started? Have details about the establishment required therefor been prepared and if so, what are they?

The above information may be furnished at Yours an early date

---

Sir,

With reference to the correspondence ending with your letter No. 48-22/ dated 8th January 1945, on the above subject, I am directed to observe that it is seen from the statement of temporary establishment received with your letter No. P.P. 85-357/ dated 10-7-1943, that the following temporary establishments are also attached to the Sewage Farm -

Cattle Shed	- Carpenter	8 on Rs 10/- p.m.
Compost Yard	"	8 on Rs 7+ p.m.
Septic tank		6 on Rs 10/- p.m.

These are not shown in the proposition statement received with your letter No. 48-20 /- dated 18-5-1945, why this has not been done is not clearly made clear.

Are the storm water coolies referred to therein the same as the septic tank gangmen in respect of whom permanent arrangements are suggested?

The scale of establishment proposed is also very liberal, e.g. as against 110 gardeners (both permanent and temporary), 120 gardeners on graded scales of pay are proposed. Whether in view of the increase of pay and of the fact that their services would be placed on a permanent basis, is it not possible to reduce this number or to retain it at present level of 110 alone?

The necessity for having a high pay of Rs 25/- and Rs 20/- to the watchmen whose posts are proposed to be created for the first time also requires examination. In case the services of two watchmen are considered necessary, should their pay not also be graded one so as to be uniform with that of others?

Similarly, would it not be sufficient to have only two clerks on Rs 25-1-40/- in place of the one clerk as at present and whether the Head Clerk on Rs 40-2-50/- may not be employed if and when the Dairy Farm is actually started?

The present number of grazing coolies is 4 on Rs 8/- p.m. whether instead of increasing to 8 on Rs 12-½-15/- it may not be increased to six only (50% over the existing strength may be made clear.

Do the scales of pay of the Veterinary Assistant and the

and Salustry now proposed correspond with those in force in the Veterinary Department?

What is the total amount of dearness allowance now paid to the existing establishment every month and what would it amount to if the revised proposals are sanctioned?

When is the dairy Farm likely to be started? Have details about the establishment required therefor been prepared and if so, what are they?

Subject Re-organization of the Municipal Sewage Farm

With reference to your letter No L 11393 dated 22nd April 1946 on the above subject, I have the honour to furnish below the information on the several points raised in your letter under advertance

It is seen from the statement of temporary establishment received with your letter No M S P 87-357/44 dated 10-7-45 that the following temporary establishments are also attached to the Sewage Farm

(i) Cattle shed gang 8 on Rs 10/-
(ii) Compost gang 8 on Rs 7+6/-
(iii) Septic tank gang 6 on Rs 10/-

These are not shown in the proposition statement received with your letter No M S 48-204/46 dated 12-5-45 why this has not been shown may kindly be made clear

The establishments referred to in letter No M S 87-357/46 dated 10th July 1945 were only temporarily employed for a period of one year to attend to the work which could not be cleared by the other hands

It is also to be stated that these establishments are under the control of the Health Section and the charges are being debited to "E 2 c 3 - Conservancy" As such, it was not included in the proposition statement of the Sewage Farm establishment Kind reference is also invited to G O No L 3190-1/11 11-62-116 dated 11-9-1943 making the cattle shed and compost establishment permanent under conservanc and sanitation

As regards the question of making the Septic tank gan permanent, under 'Conservancy and Sanitation", kin reference is invited to a separate reference made as desired in your letter No L 13116 dated 24-5-46, vid this office letter No MS C 44-22/45-6 dated 25-7-47

P T O

2 Are the storm water coolies referred to therein the same as the Septic tank gangmen in respect of whom permanent arrangements are suggested?

The storm water coolies are different from Septic tank gangmen

3 The scale of establishment proposed is also very liberal, i e , as against 110 gardeners (both permanent and temporary), 120 gardeners on grade scale of pay are proposed Whether in view of the increase of pay and of the fact that their services would be placed on a permanent basis is it not possible to reduce this number or to retain it at present level of 110 alone?

The total number of gardeners existing and proposed (both temporary and permanent) is 112 and 120 as per proposition statement The Municipal Farm has now expanded by the acquisition of about 50 acres to the east of Farm 21 temporary labourers are already working on a temporary basis and their continuance is being sanctioned by Government from time to time Hence the additional number of hands proposed is very modest Further it is difficult to get labour at the low rate of Rs 8/- or Rs 10/- ~~xxx~~ unless attraction of some high pay and prospect of getting permanent jobs is shown

4 The necessity for giving a high pay of R 25/- and R 20/- to watchmen whose posts are proposed to be created for the first time also requires examination In case the services of two watchmen are consi ered necessary, should ther pay not also be a graded one so as to be uniform with that of others?

It has been found that retired military men, Ghoorka watchmen and such others are more useful as watchmen rather than others There is a lot of petty pilfering especially during nights Hence an all night watch has to be kept a d for this job only Ghoorkas or retired military men are fit and this cannot be secured without good pay

5 Similarly, would it not be sufficient to have only two clerks on R 25-1-40 in place of the one clerk as at present and whether the Head Clerk on R 40-2-50 may not be employed if and when the dairy farm is actually started?

The Farm work has very much increased in recent years and the Revenue ~~expenditure~~ has also increased from R 30,000/- to R 53,000/- It is found very essential to have a senior hand on R 40-2-50 for purposes of maintaining proper accounts and supervise the ministerial side of the work Two junior clerks are also necessary One to look to the correspondence relating to complaints, admission of dry cattle etc , and the other is for the sales work (The grade of all the three clerks to be fixed at R 30-2-50-2-60 which has been recently sanctioned in respect of Revenue Department so as to facilitate transfers)

Level
This grade has not yet been given effect to
14/8

6 The present number of grazing coolies is 4 on R 8/- p m Whether instead of increasing it to 8 on R 12-2-15, may it not be increased to six only (50 percent over the existing strength) may be made clear?

The demand for grass has vastly increased of late There are indents from Palace, Body Guards, Mysore horse etc , who come and take delivery at the Farm alone Requisition for supply of grass from private persons has increased so much that a lorry has been purchased recently and put in use for supply of grass To meet such demand - a

	a large quantity of grass has to be cut daily and in time Hence the proposed number is absolutely necessary and any reduction would mean dislocation of work and complaints from the military and the public
7 Do the scales of pay of the Veterinary Assistant and the Salustry now proposed correspond with those in force in the Veterinary Department?	The scale of the Veterinary Assistantwas proposed to be fixed at R 50-5/2-90 according to the then scale of pay which has now been revised and fixed at R 60-5-150 The scale may be fixed to be on a par with the departmental grade as an officer has to be barrowed from there A beginning for running a Dairy has already been made by the purchase of 30 buffaloes and the services of a veterinary Inspector to look after these and the Farm cattle and conservancy bullocks are immediately required
8 hat is the total amount of dearness allovance row paid to the existing establishment every month and what would it amount to if the revised proposals are sanctioned?	The dearness allowance paid to the several employees at present is R 1055/- which will be R 1904/- if the proposals are sanctioned
9 When is the Dairy farm likely to be started? Have details about the establishment required therefor been prepared and if so what are they?	The Dairy Farm has been started recently and the work is being attended to by the existing staff alone Detailed proposals will be worked out separately very early

I request that sanction of Government may kindly be accorded to the revision very early as the matter has been under correspondence from a long time

two establishments was deferred with the observation that they may be continued on daily wages and the number made flexible depending on the nature and amount of work As regards the septic tank establishments, it had been stated in this office letter No M5 C 44-28/45-46 dated 20-1-48 that the question would be further recommended after due consideration of the same along with the proposals for the reorganisation of the Municipal Farm which was duly approved in your letter dated 11-2-48 referred to above But the submission of the proposals for the re-organisation of the Municipal Sewage Farm may take still some more time and obtaining orders every year for the continuance of these establishments under reference viz , cattle shed, compost and septic tank, has not only been inconveniencing the labourers but also has been prejudicial to the proper despatch of work in the Farm as the labourers have not been evincing interest on the score that their services may be terminated at any moment

The cattle shed and the comost establishment was sanctioned in G O No L 1489-90/M1 14-41-81 dated 2-8-42 of which, 8 gangmen of each section ie , cattle shed and ccmpost was ordered to be continue on " Daily wages " as seen from the proposition statement, enclosed herewith

The original references relating to the G O of 1942 and the orders sanctioning the propositin statement are not traceable in thi office, at this distance of time

The bills of the marginally noted establishments have been passed by the Auditor from 1942 to 1946 without any objection But in 1947 objection has been taken by the Auditor to the effect that sanction of Government is necessary for the continuance as these establishmen are not permanent

1	Cattle shed	8 men	The bills are being objected to every

3	Septic tank	6 men	every month for obtaining sanction of

Government and they are passed provisionally pending sanction of Government

The cattle shed establishment consists of 8 gangmen who are looking after health cattles grazing in the Farm The duties assi to them are cleaning the cattle sheds and cleaning the horsegram. They are distributed as under -

4 men and 4 women -

At the Municipal Farm 2 men
At peoples Park 2 men
4 women for cleaning the cattle sheds and cleaning the horsegram

The 8 gangmen employed in the ccmpost section are detailed fo work, as follows -

The work is increasing day to day and there are 3 sections of compost yards viz at the Municipal Farm, Paduvarahalli and Jala The continuance of these men on a permanent basis

necessary to have effecient work

The 6 men employed for the Septic tank are daily cleaning the grut chambers and channels and removal of sand in and around the septic tanks and also attend to general cleaning of the surroundings

The Farm Manager who is in charge of three gangs, reports that these gangmen are very necessary and they may be made permanent in view of the increase of work every year in the above sections It is more economical to entertain the gangmen on a monthly wages I am also of opinion that the three gangs may be made permanent The subject may be kindly placed before the Health Committee (this is a deferred subject) for their approval to place these gangs on a permanent basis

Subject Making certain temporary establishments permanent in the Nagpur City Mlly —

Sir,

With reference your letter no C3 P34 dated the 6th November 1968 regarding sanction of Govt to the resolution of the MC dated the 6th October 1968 approving of the recommendation of the Health Committee for the Standing to make the temporary revised establishment of the Sweepers attached to the Nagpur Mlly permanent on the revised scale of pay sanctioned vide

	No	Pay Rs
(1) Cattle shed Sweepers	8	18+12 DA
(2) Compost-Establishment-Sweepers	8	18+12 DA
(3) Septic Tank Sweepers	6	18+12 DA

I am directed to request that a statement showing the permanent and temporary establishments of the Sewage Farm as on 1st Nov 1948 may be furnished, together with a proportion statement showing the extra expenditure involved in case these establishments are made permanent.

2. I am also to enquire, in this connection, what the income and expenditure from the sewage farm were for the last three years

3 It is not clear what difficulty there is for the retrenchment of workers in this regard, especially as the system is pending for over 5 years Thus many the claimed Whether the continuance of the temporary establishments referred to has been sanctioned for the year 1948-49 may also be intimated

Sir,

Subject - Making certain temporary Gangs of the Health Department working in the Farm permanent

With reference to the correspondence ending with your letter No L 6223 dated the 8th December 1948 on the above subject, I have the honour to state as follows -

While passing orders on the proposal to confirm certain temporary establishments and continuing the remaining establishments of the Health Department working in the Sewage Farm, the Government approved, in their order No L 3190-1/M1 11-42-116 dated the 11th September 1943, the continuance of the services of the marginally* noted establishments on daily wages, the number of hands being made flexible depending on the nature and amount of work These gangs are being continued on a temporary basis since then

Cattle shed, (Conservancy Bullocks)	8 men	They were not included in the recent list of establishments whose scale of pay was revised The revision of permanent gangs of the Sewage Farm directly charged to E-11-Sewage Farm was included in the General Revision which has been sanctioned in G O No L 1810-1 M1 105-48-15 dated 24-8-1948
Septic Tank	6 men	
Compost Gang	8 men	

While passing the Nominal Rolls of these gangs, the Auditors observed that as these gangs were not permanent, annual sanction of Council and Government for their continuance is necessary for admitting the Nominal rolls Accordingly,

the Health Officer placed a note with the Audit Objection before the Health Committee stating that these gangs were in existence for a long time and their services were necessary and that they should be placed on a permanent basis (Audit Objection No 307/31-10-47 and No 314/10-11-47) The subject was placed before the Health Committee After a detailed examination, the Health Committee recommended in their resolution dated 13th September 1948 (copy enclosed) that these establishments may be made permanent This was approved by the Municipal Council in their Resolution No 259 dated 2-11-45

The question of re-organisation of the Sewage Farm is now under the consideration of a Special Sub Committee as already reported These gangs do not farm part of the Sewage Farm Establishment, but pertain to the Health Department though working in the Sewage Farm I request that orders of Government may kindly be obtained to make these gangs permanent as resolved by the Council A proposition statement in triplicate showing the extra expenditure involved in this behalf is enclosed

Subject Making certain Temporary Cadre of the Health Section Establishment permanent

---

With reference to your letter No L 9647 dated 18-2-1949 and subsequent reminders ending with your D O letter No I 20206 dated 16-2-1953 on the above subject I enclose herewith a statement showing the permanent and temporary establishments of the Sewage Farm as on 1-11-1948 A statement showing the income and expenditure for the last six years is also enclosed

In this connection I would like to point out that the above establishment, the continuance on a permanent basis of which is now in question, relates purely to the Health Section of the Municipality working in the Municipal Farm as a matter of convenience only since the Sewage Farm contains the necessary facilities and equipments required for this work and that the Septic Tank Compost Yard could no where else be located other than in the Sewage Farm The cattle shed is located not only in the Sewage Farm but also in two other places viz , Peoples' Park and N R B Choultry for reason of proximity for detailing of carts for removal of rubbish in mohallas expeditiously The cost in respect of all these is debited to E2 C Conservancy and Sanitation and

not to the head 'E4 Sewage Farm, as shewn already pointed out in this office letter No C.P 34/48 49 dated 25/26-1-1949 Such being the case, the income and expenditure of the Municipal Farm has no bearing to the question at issue A proposition statement in respect of the three establishments showing the perranent and extra cost involved if these gangs are made permanent has already been sent in this office letter of even Number dated 26-1-1949 A copy of the same is enclosed for ready reference

The question of making these gangs permanent has arisen as a result of an audit objection that sanction of Government was necessary for the continuance of these gangmen year to year as when the Government Orders were passed confirming some of the establishments in C O No L 3190-1/M1 11-42-116 dated 11-9-1943 the continuance of the establishments in question ~~were~~ was not made on account of the flexible nature of the work These establishments are being continued year after year and their services are essential and cannot be discontinued Even their pay has been revised during the General revision as also of the Sewage Farm

In these circumstances, I request that sanction of Government may kindly be obtained for continuin the services of these gangmen noted in the margin on a permanent basis

Subject Making permanent certain Temporary Gangs of the Health Section

---

With reference to your letter No L 4664 dated 21-7-1953 on the above subject, I write to state that the ~~services of~~ Cattle Shed, Compost and Septic Tank gangs perform essential duties in the Municipality The cattle shed gang look after the bullocks which are maintained by the Municipality for the removal of rubbish in the city by carts Septic tank establishment attend to the regulation of sewage water flowing through septic tank and removal of silt etc , therefrom

Compost gang as their designation indicates attend to manufacture of compost in the farm

In these circumstances the services of these men have to be considered permanent Further when the maistries and clerks of these establishments are made permanent as per G O No L 1489-90/M1 11-41-81 dated 2-8-1942 as a corollar the services of the men also may also be similary treated As there was an audit observation that as matters stand sanction has to be obtained every year for continuing these gangs a reference in this behalf was made

All these men are no doubt subject to operation of the Provident Fund Rules and this will be terminated soon after the receipt of orders of Government making them permanent and pensionable and necessary action taken to enforce the provision of permanent service such as getting their lives insured etc

I request that orders of Government may therefore kindly be obtained to make this establishment permanent and pensionable in this behalf

Sub ect - ...ing certain temporary ...ngs of the Health Department working in the Farm permanent

---

With reference to the correspondence cited with your letter ...o L 6223 dated the 8th December 1948 on the above subject I have the honour to state as follows -

While passing orders on the proposal to confirm certain temporary establishments and continuing the remaining establishments of the Health Department working in the Sewage Farm the Government approved in their order No L 5190-1/1 11-42-11o dated the 11th September 1945 the continuance of the services of the marginally* noted establishments on daily wages the number of hands being made flexible depending on the nature and amount of work These gangs are being continued on a temporary basis since then They were not included in the recent list of establishments whose scale of pay was revised The revision of permanent gangs of the Sewage Farm directly changed to Municipal Sewage Farm was included in the General Revision which has been sanctioned in G O No I 1810-1/1 105-48-15 dated 24-8-1948

Cattle shed (Conserving Bullocks)	8 men
Septic tank	6 men
Compost Gang	8 men

While passing the Nominal Rolls of these gangs, the Auditors observed that as these gangs were not permanent, annual sanction of Council and Government for their continuance is necessary for submitting the Nominal Rolls Accordingly the Health Officer placed a note with the Audit Objection before the Health Committee stating that these gangs were in existance for a long time and their services were necessary and that they should be placed on a permanent basis (Audit Objection No 507/01-10-47 and No 514/10-11-1947) The subject was placed before the Health Committee After a detailed examination the Health Committee recommended in their resolution dated 13th September 1948 (copy enclosed) that these establishments may be made permanent This was approved by the Municipal Council in their resolution No 259/2-11-45

The question of re-organisation of the Sewage Farm is now under the consideration of a Special Sub Committee as already reported These gangs do not form part of the Sewage Farm Establishment but pertain to the Health Department though working in the Sewage Farm I request that orders of Government may kindly be obtained to make these gangs permanent as resolved by the Council A proposition statement in triplicate showing the extra expenditure involved in this behalf is enclosed
